

the first true

Drill Monitor

accurate population - accurate acres

Expandable Features

- True population reading for up to 24 counting sensors
- Scan feature for individual row population and spacing
- Direct readout of seeds per foot
- Direct readout of seed spacing in inches
- Radar or ground drive speed sensor
- Non volatile memory for acre counters
- Simplified wiring harness features 3 wires at the hitch.
- Direct readout of average population or spacing
- Direct readout of maximum or minimum population
- Direct readout of ground speed
- Direct readout of up to 3 shafts RPM
- Bar graph readout of up to 3 hopper levels
- Alarms for low population
- Optical Blockage Sensing for all rows
